MONTHLY CATALOGUE OF CANADIAN GOVERNMENT PUBLICATIONS

A comprehensive listing of all publications issued each month for sale, free distribution, or for official use only, by the various departments and agencies of the Canadian Government. An easy-to-follow source of reference invaluable to persons who need to keep informed of new developments and continuing programs of the federal government. Each month's catalogue includes all publications received by the Supervisor of Government Publications during the previous month of issue, and is ready for distribution during the second week of the following month. It gives prices, distribution policy and full bibliographic information.

Three sections list Parliamentary Publications, Departmental Publications, Periodicals, and an index makes for easy finding of entries. An Introduction gives helpful general information. The catalogue is bilingual.

INTRODUCTION

GENERAL INFORMATION

Under the authority of the Queen's Printer, the Supervisor of Government Publications, Department of Public Printing and Stationery, Ottawa, Ontario, has charge, by law, of the sale of all official publications of the Parliament and the Government of Canada which are issued for sale, as well as of the distribution of all public documents and papers to officials and other persons who are entitled to receive the same without payment.

DISTRIBUTION OF PUBLICATIONS

HOW TO ORDER PUBLICATIONS

Remittance

It is required by law that remittance be made in advance of shipment of publications.

Cheque or money orders should be made payable to the Receiver General of Canada. Postage stamps are not acceptable.

Discount

A discount of 25 per cent is allowed to book dealers and quantity purchasers on condition that the prices set by the Supervisor of Government Publications for the sale of the publications shall not be exceeded and that publications shall not be overprinted with any advertising matter.

Deposit and Standing Accounts

To avoid waiting for quotations and sending individual remittances, those who expect to purchase Canadian Government publications regularly may open a deposit account with the Supervisor of Government Publications. The minimum deposit is ten dollars (\$10.00). A deposit account number is assigned to the customer which he will quote when ordering publications. All orders are charged to the account and regular statements forwarded.

For the convenience of persons or institutions with special business, professional or academic interests, the Supervisor of Government Publications also maintains "standing accounts" to supply them with the publications they need as soon as they are issued. Telephone orders to 9-3175, Ottawa, and telegrams, are accepted. These accounts as well as deposit accounts, provide a convenient method of paying for documents.

Postage charges

No extra charge is made for postage on documents forwarded to points in Canada and the United States. To cover cost of postage, 30 per cent is added to the selling price when publications are to be mailed to other countries.

FREE DISTRIBUTION

To Depository Libraries

The Queen's Printer is required by law to furnish free of charge one copy of any government publication, not of a confidential nature, to designated classes of libraries in Canada, for preservation and educational purposes, so that all the public may have access to all government publications.

Libraries are expected to accept, shelve and preserve, classify and catalogue, all government publications sent to them, and to assume full responsibility as designated depository libraries. **Full-depository libraries** are entitled to receive one copy of every publication of the Parliament or Government of Canada which is made available to the Supervisor of Government Publications for distribution. **Selective-depository libraries** are entitled to select any series of government publications they are able to adequately place at the disposal of the public. The Daily Checklist incorporates the functions of a Depository Invoice for full-depository libraries and of an Order Form for selective-depository libraries. In order to receive their selection, selective-depository libraries must make application within ten days after receiving the issues of the Daily Checklist in which the desired items appeared.

To the General Public

Free publications are obtainable from the Department or Agency issuing the publication.

CATALOGUE SERVICES

Daily Checklist

The Daily Checklist, published mainly for administrative convenience, is issued Monday through Friday except public holidays. It records all government publications so that they are readily accessible to the Public Service and the general public and quickly made known to libraries. Produced in loose-leaf form, the Daily

Checklist is mailed to all who need to have day-to-day information on what is being published by Parliament and the Government of Canada, with the exception of the statutory orders and regulations which are listed in Canada Gazette, Part II, under title "Statutory Orders and Regulations". The material which appears in the Daily Checklist is used to compile a monthly catalogue. All those who are authorized by law or regulation to receive free copies of government publications receive the Daily Checklist automatically and without charge.

Monthly Catalogue

The Monthly Catalogue of government publications is a comprehensive listing of all official publications, public documents and papers, not of a confidential nature, printed or "processed" at government expense by authority of Parliament or that of a Department, Commission, Board, Corporation, etc., of the Government, including publications bought at public expense for use of, or distribution to, Members of Parliament, public officials or the public. Each issue of the Monthly Catalogue contains all items listed in the Daily Checklist during the previous month and is ready for distribution during the second week of the following month.

Prices and distribution policy are stated for each title listed for the guidance of prospective buyers, librarians and the interested public.

Annual Consolidated Catalogue, 1953

The Canadian Government Publications Consolidated Annual Catalogue, 1953, supersedes the Annual Catalogue of 1948 and supplements to 1952 and incorporates all the entries from the Monthly Catalogue of Canadian Government Publications, January to September, 1953 inclusive.

An attempt has been made to include all federal publications in print as of September, 1953. The Consolidated Catalogue records free as well as priced publications, whether distributed by the Queen's Printer or by the various issuing agencies.

Annual Catalogue, 1954

The Annual Catalogue, 1954, is a supplement to the Consolidated Annual Catalogue 1953 and includes all federal publications received and noted by the Publications Division from October, 1953 to December, 1954 inclusive.

CLASSIFICATION

The Catalogue numbers immediately following the distribution symbols are those used by the Supervisor of Government Publications for his collection of documents. They should be used also as order numbers for publications obtainable from the Queen's Printer. The following outline is given for the benefit of libraries who may wish to use this scheme for their respective documents collections. The Monthly and Annual Catalogues may be satisfactorily used as direct indexes to government publications on their shelves to supplement their own card catalogue. The schedules are being expanded and will be available to libraries, on request, when completed.

The FAR DISTANT SHIPS

An Official Account of
Canadian Naval Operations
in the Second World War

By
JOSEPH SCHULL

"Those far distant, storm-beaten ships upon which the Grand Army never looked, stood between it and the dominion of the world." These words, written of the army of Napoleon and the ships of Nelson, apply equally to the work done by Allied seapower in the Second World War. "The Far Distant Ships" is an account of Canada's contribution to that work.

The story ranges over almost every one of the world's seas. For sixty-eight months the Canadian Navy was in the thick of the battle about the Atlantic convoys, as one of the principal contenders. In other fierce campaigns along the eastern seaboard of North America, in the St. Lawrence River and the Gulf, in the Arctic, the Mediterranean, the English Channel, the North Sea, the Bay of Biscay and the Pacific, and along the coasts of Normandy, Sicily, Italy, North Africa and Greece, Canadian ships and seamen wrote a gallant chapter of history.

A BIG VOLUME
OF MORE THAN
500 PAGES

Twenty-six maps, several in colour, and some thirty illustrations are included in this handsomely printed volume. Among the appendices one of particular interest to former navy men is a table showing principal Canadian ships and their commanding officers throughout the war.

Exciting, new, never told before !

THE NAVAL SERVICE OF CANADA

This remarkable work will be a welcome addition to the libraries of Navy men. Never before has such a wealth of facts of Canadian Naval history been made available at such a low price.

Those who want to refresh their knowledge of the great international events of the last five wars, and those who wish to learn how the Navy solved the many problems of organization, supply and training during the Second World War will want to have these books.

Beautiful bound in stout blue buckram, the two volumes of THE NAVAL SERVICE OF CANADA will be a possession that everyone interested in the Navy will be proud to own. Dramatic, full colour reproductions of Canadian War Artists paintings appear throughout the 1015 pages of the two volumes.

THE MASSEY REPORT

REPORT OF THE ROYAL COMMISSION ON NATIONAL DEVELOPMENT IN ARTS, LETTERS AND SCIENCES 1951

The MASSEY REPORT is a survey of the cultural resources of Canada, and has the earmarks of being one of the major documents of our social and constitutional history. From the point of view of its potential influence upon the life and thought of the Canadian people, it could be said to rank in its own field with Lord Durham's Report (1839) and the Statute of Westminster (1931); and, like them, it will gather added lustre and prestige as time moves on. The Report is the outcome of two years of continuous work by The Royal Commission on National Development in the Arts, Letters and Sciences, which was appointed by the Federal Government in 1949.

Its analyses and recommendations covering all phases of cultural activities in Canada, such as painting, writing, music, radio, television, scholarly work, university education, are of vital interest to Canadians in all walks of life. 517 pp.

ROYAL COMMISSION STUDIES ON THE ARTS, LETTERS AND SCIENCES 1949-1951

Early in the beginning of its work, the Royal Commission on national development in the Arts, Letters and Sciences called upon first-rank scholars in Canada for reports and essays on various subjects which the Commission was instructed to review.

This book contains many of these essays which have been shortened and edited so that the reader will have an excellent and readable picture of the state of Canada's culture in most of its various branches. Reports and essays submitted in French are printed in that language. 430 pp.

Price \$3.00
